

# MAPPING CAMP HARKNESS

Adrian Bouchard & Claudia Bouchard

## Background

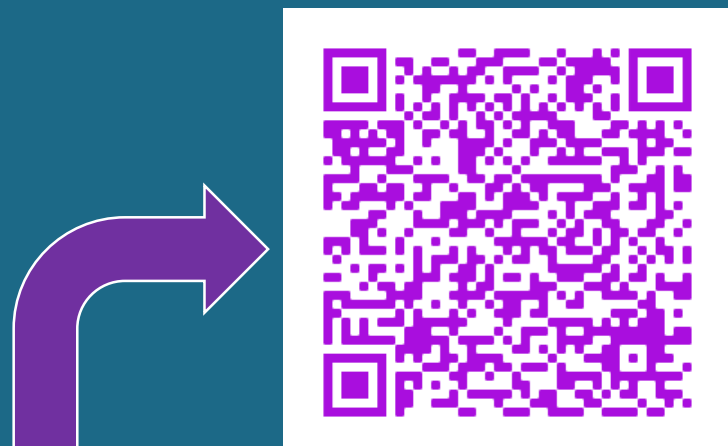

- Camp Harkness is a state park for individuals with special needs located in Waterford, CT between Waterford Beach & Harkness Park
- Facilities include cabins, cottages, tent sites, barnyard animals, horse-back riding, picnic pavilions, accessible playscape, walkway, overlook, bathhouse, beach, gardens, dining hall, lodge, & infirmary
- Our goal was to create an online interactive map that shows the many wonders of Camp Harkness

## Project Outline

- We used the Track Kit app to map the Camp Harkness property during the summer
- We recorded photo, video and audio files to embed into the map
- We uploaded the tracks & files to Google Maps and combined them to make a publicly accessible map
- We added additional photos of plants & animals that are present at Camp Harkness
- Many thanks to Colette Driscoll Long for sharing some of her photos!

## The Take-Away

- Through this project we learned how to use Track Kit and other apps to make an online interactive map
- Our map will be available on the Camp Harkness website and accessible to the public
